

Directions for Joining Teacherease Online Teacher Gradebook

Teacherease is our schoolwide grade reporting system. Parents can review students' graded assignments and assessments in real time. Parents can also see when assignments are handed in late (or not at all!). The teachers also make meaningful comments regarding the assignments or the quality of work the students completed.

There is also a special section that lists all of the "Missing Assignments" students have not completed.

This system is a very valuable tool to use to keep up with how your child is doing without relying on them to give you the information!

Akiva Academy also uses this system to generate progress reports and trimester report cards. Progress reports are to be signed by a parent/guardian and returned to the teacher the next day.

The steps to joining this system are as follows:

1. Parents provide email addresses on the enrollment forms.
2. The Teacherease Coordinator will send you a welcome email. In that email, you will be assigned a username and password for your student's classes.
3. Go to Common-Goal.com and select sign in. Use the email address you submitted to the office, and the password received in the welcome email to log in. You can change the password after the first log in. The site is very user friendly.
4. Please use the Bloomz message system to communicate with the teachers. This system automatically notifies the teachers when a message is received from a parent. The Teacherease system does not.
